These property particulars are believed to be a fair description of the property, but are provided as a guide only and are not intended to form part of a contract. All measurements and dimensions are approximate. Any reference to service installations or appliances is intended to be descriptive only and no tests have been carried out by us.

LOCATION

This property is located on the northern side of Cambridge Road, immediately west of its junction with Grove Road, located on the eastern side of Dover Road (A258) and mid-way between Walmer and Deal on the extreme east coast of Kent. This is approximately 18 miles south-east of Canterbury and 8 miles north-east of Dover.

This is a thriving residential area with several small businesses located within it.

Walmer and Deal combined have a population of just under 40,000 inhabitants. They both enjoy mainline railway access and the A256 trunk road to the west gives direct access to Dover and beyond.

DESCRIPTION

The ground floor retail unit provides just under 500 sq.ft. of accommodation and there is a flat on the first floor over. The building appears to be of rendered brick block construction under a clay peg tile roof. The premises were formerly used as a vet's surgery, having a front reception/waiting area of some 160 sq.ft. with a side consulting room of a little over 100 sq.ft., to the rear of which lies a store area of a little over 200 sq.ft with WC facilities and fire escape to the rear. Decoratively the premises are in a reasonable state of repair and condition, awaiting redecoration/refurbishment by the next tenant. There is a single-phase electrical supply and a (presumed) gas-fired wet central heating system, the boiler for which lies on the first floor – further details available from the agents. Several of the internal partition walls on the ground floor appear to be of stud construction and accordingly an element of reconfiguration could be carried out (subject to landlord's consent) to provide more open retail space if required; however the premises could lend themselves ideally to further use by a physiotherapist, beauty treatment or similar users.
